I am requesting that the FCC reject the National Association of Broadcasters petition 04-160. I thoroughly enjoy XM radio. and the programming that they provide. I do not want the government or lobbyists, or anyone else telling me what I can watch or listen to. As long as I pay monthly fees to satellite radio, I should be able to select whatever is available on XM and it is not the FCC,s business in any way. This is just another attempt of the looney left to interfere in the lives of people. HANDS OFF!!!! James G. Connors
